ADMIN PERSONA

Overview

Admin users manage the entire EdTech platform including content, users, and quizzes for CBSE classes 8–12.

Core Features

1. Authentication and Access

Admin Login

- Email and password authentication
- Secure login with validation
- Role-based access (Super Admin)
- Forgot password flow (Email → OTP → Success)
- No signup option

2. Admin Management

View Admin List

- Search and filter admins

Add New Admin

- Fields: Email, Password, Role (dropdown)
- Roles: Super Admin
- Email validation

Delete Admin

- Remove admin accounts

3. Student Onboarding

Student Onboarding

- Create student accounts from admin panel
- Fields:
 - Full Name
 - Email Address
 - Password (created by admin)
 - Class (8–12)
 - School Name

Send Credentials via Email

- Automatic email with login credentials
- Success notification after account creation

View All Onboarded Students

- Table with all student details
- Student avatar display
- Search functionality

Delete Student Account

Edit Student Details (Pending)

- Update student class
- Change student email

- Modify school name
- Reset student password

4. Syllabus Management

Class-based Syllabus Organization

- Separate management for classes 8–12
- Grade selector tabs

Subject Management

- View subjects per class
- Add new subjects via modal
- Subject cards with color coding

File Upload

- Upload study materials (PDF, DOC, etc.)
- Fields: Subject selection, File upload
- Display file name and size
- Upload date tracking

View Uploaded Files

- Table view of all materials
- Columns: Subject, File Name, Size, Upload Date
- Filter by class

Delete Files

- Remove study materials
- Confirmation on delete

Edit Subject (Add More Files)

- Modal showing all files for a subject
- Add additional files to existing subjects
- Upload new files button

Delete Subject

- Remove entire subject from class
- Warning if files exist

Edit or Rename Subject (Pending)

- Change subject name
- Update across all files

File Replace or Update (Pending)

- Replace existing file with new version
- Maintain file history

5. Quiz Management

Create New Quiz

- Question creation
- Fields:
 - Class/Grade selection (8–12)
 - Question text
 - 4 Multiple choice options
 - Correct answer selection

View All Quizzes

- Table display with all questions
- Show: Grade, Question, Options, Correct Answer

Filter by Class

- Dropdown to filter quizzes by class
- “All” option to view everything

Delete Quiz

- Remove quiz questions
- Delete confirmation

Edit Quiz (Pending)

- Update question text
- Change options
- Modify correct answer
- Update class assignment

Question Bank (Pending)

- Categorize by subject and chapter
- Tags for topics
- Question statistics (attempts, success rate)

Student Performance Analytics

- Average quiz scores by class
- Most popular subjects
- Material download statistics
- Student engagement metrics

Profile Management

- View and edit admin profile
 - Change password
-

STUDENT PERSONA

Overview

Students access quizzes and study materials filtered by their assigned class (8–12).

Core Features

1. Authentication and Access

Student Login

- Email and password (provided by admin)
- Class-based automatic filtering
- Forgot password flow (Email → OTP → Success)

Forgot Password Flow

- Three-step process
 1. Enter email
 2. Verify 6-digit OTP
 3. Success screen with redirect

2. Student Profile

View Profile

- Display student information
- Profile avatar or image
- Student ID display

- Academic details section

Editable Fields

- Full Name
- Father's Name
- Father's Phone Number
- Home Address

Read-Only Fields (Locked by Admin)

- Email Address (Read-only)
- Class or Grade (Read-only)
- School Name (Read-only)
- Info banner explaining admin-managed fields

Update Profile

- Save button with loading state
- Success notification on update
- Form validation

Profile Picture Upload

3. Quiz Section

View Available Quizzes

- Display quizzes filtered by student's class
- Quiz cards include:
 - Subject name
 - Quiz title
 - Number of questions

Duration in minutes

Start Quiz

- Click to begin quiz
- Timer starts automatically

Quiz Interface

- Question display with number
- 4 multiple choice options (A, B, C, D)
- Visual selection feedback
- Current question progress (1 of X)
- Back to quiz list button

Submit Quiz

- Submit button at the end
- Success notification on submission

Quiz Completion

- Finished state display
- Results summary
- Score display
- Celebration UI for high scores
- Back to quiz list option

4. Syllabus and Study Materials

View Study Materials

- Filtered by student's class automatically

- Material cards include:
 - Subject name
 - Material title
 - File type (PDF, DOC, Notes)
 - File size
 - Upload date

Filter by Subject

- Sidebar with subject list
- All Subjects option
- Visual active state
- Subject-based filtering

Search Materials

- Search bar for quick finding

View Files Online

- Click to view file in browser
- Modal with embedded file viewer
- Full-screen file display
- Close button to return

Download Materials

- File download functionality

AUTHENTICATION

Current Authentication Flow

Admin Login Flow

1. Admin visits platform
2. Selects Admin role toggle
3. Enters email and password
4. Clicks Login
5. System validates credentials
6. Redirects to Admin Dashboard
7. Forgot Password: Email → OTP → Reset Link Sent

Student Login Flow

1. Student visits platform (credentials received via email from admin)
2. Selects Student role toggle
3. Enters email and password
4. Clicks Login
5. System validates and auto-assigns class
6. Redirects to Student Dashboard (Quizzes page)
7. Forgot Password: Email → OTP → Reset Link Sent
8. No Signup Option – message to contact school administrator

Access Control

- Role-based routing (Admin vs Student)
- Class-based content filtering for students
